OBJECTIVE

Mobile Developer with 2+ years of experience in Flutter development, Firebase integration, payment gateways, and machine learning. Seeking full-time Flutter Developer or Machine Learning Engineer roles.

EDUCATION

Bachelor of Computer Science, Air University Kamra Campus

2022 – 2026

SKILLS

Technical Skills Flutter, Firebase, Supabase, BLoC, GetX, REST APIs, TensorFlow, MySQL

Soft Skills Problem-Solving, Team Collaboration, Communication, Adaptability

Tools Android Studio, VS Code, GitHub, Jupyter Notebook, Vercel

EXPERIENCE

Flutter Developer (Intern)

Personal Projects & Open Source

Remote

- Architected scalable mobile applications using **BLoC** state management and clean architecture.
- Integrated secure **Stripe Payment Gateway** and managed complex financial transaction flows.
- Optimized user engagement by implementing real-time push notifications via **Firebase Cloud Messaging (FCM)**.
- Engineered robust backend integrations with **Firebase** for seamless real-time data synchronization.

PROJECTS

GraphoInsight: AI Handwriting Analysis (Flutter, TFLite, Firebase)

Current

Final Year Project: Developed an AI-driven application to predict personality traits (OCEAN model) from handwriting samples. Integrated **TensorFlow Lite** for on-device ML inference and leveraged **Firebase** for secure data management and automated report generation.

Professional Web Portfolio (React, Tailwind CSS, Vercel)

Mar 2026

Architected and deployed a high-performance developer portfolio. Implemented responsive UI/UX principles using **React** and **Tailwind CSS**, focusing on optimized load times and seamless navigation for showcasing project repositories.

FitTrack Health App (Flutter, Firebase, BLoC)

Jan 2025 – Feb 2025

Engineered a comprehensive fitness ecosystem featuring real-time health tracking. Utilized **BLoC** architecture for scalable state management and **Firebase** for real-time synchronization of user metrics and fitness goals.

My Telenor App Clone (Flutter, Firebase, Stripe)

Sep 2024 – Dec 2024

Developed a full-stack mobile clone with integrated **Stripe Payment Gateway**. Implemented complex user flows including secure authentication, real-time balance updates, and automated push notifications via **FCM**.

Medical Care App (Android Native, SQLite, Firebase)

Mar 2024 – Jun 2024

Designed an appointment scheduling system with offline support using **SQLite**. Features include real-time doctor availability, secure appointment booking, and cloud storage for medical records.
